Business Analyst with a focus on streamlining workflows and driving data-driven decision making. Experienced in gathering requirements, architecting Standard Operating Procedures, and improving organizational efficiency through AI-powered automation.

Education

University of Texas at Arlington
Master of Science in Computer Science
Master of Science in Engineering Management

Dallas, Texas, USA
August 2023 - May 2024
May 2024 - Current

Jawaharlal Nehru Technological University
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India
August 2019 - July 2023

Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA

October 2023 - October 2025

- Orchestrated the end-to-end **product lifecycle** for 'MavMarket', scaling the event to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a comprehensive and highly optimized **vendor acquisition strategy**.
- Improved stakeholder **Net Promoter Score (NPS)** by 35% and engagement by 25% by executing a high-fidelity feedback system for 100+ vendors and 200+ attendees, utilizing **user research** to identify and resolve key friction points.
- Reduced event planning time by 40% by architecting a 50+ page, **AI-powered Standard Operating Procedure (SOP)** in Gemini that improved organizational efficiency and delivered a consistent and professional user experience for all MavMarket users.
- Demonstrated domain expertise as measured by zero launch delays, by utilizing complex physical infrastructure coordination and strictly executing on-site vendor pipelines to consistently align all business and strict operational requirements.

Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - January 2023

- Drafted **Product Requirement Documents (PRDs)** and coordinated task delegation for 4 key projects, serving as the bridge between stakeholders and technical teams by utilizing **Jira** to ensure consistent and on-time delivery cycles.
- Improved development efficiency by 20% by serving as Scrum Master, applying **Lean-Agile principles** to streamline workflows and ceremonies by utilizing **bi-weekly retrospectives** to identify, document, and remove complex process blockers.
- Optimized the end-to-end **order lifecycle** for an e-commerce platform to improve customer satisfaction, by leveraging **automated inventory triggers** and pricing logic to reduce data processing errors and improve reliability by 15%.
- Demonstrated execution excellence as measured by zero-defect deployments, by proactively mitigating critical project risks and utilizing Gantt charts in Jira to manage 100% on-time delivery across 4 complex enterprise projects.
- Served as the primary liaison for stakeholder translation, by bridging technical complexity for non-technical executive leadership to strictly align product roadmaps, requirements, and business goals across global teams.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - July 2023

- Spearheaded community growth to 5,000+ members by performing **Market Analysis** and building a strategic network of industry partners, by utilizing **200+ technical workshops** to foster a thriving, scalable, and inclusive developer ecosystem.
- Iterated on technical curriculum content based on high-value **attendee satisfaction metrics**, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive professional builder engagement for community members.

Strategic Projects & Analysis

Google Maps: Product Strategy

- Translated qualitative data from **42 user interviews** into two core problem statements, revealing a critical user need for guaranteed **menu accuracy** by utilizing **UX journey mapping** to identify high-friction drop-off points.
- Architected a **product strategy** to directly address validated user needs, by utilizing a roadmap for a **centralized menu system** with granular filtering to capture the high-value market segment with critical dietary requirements.

Clash of Clans: Growth Strategy

- Proposed a **viral growth strategy** driving **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, by utilizing **referral loop optimization** and player behavioral data patterns.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped **Clan Discovery engine** and transforming the feed by utilizing **data-driven insights**, metrics, and predictive UX patterns.

Technical Projects

Resume Agent - AI Resume Engineering System

February 2026 - Present

- Orchestrated a 'Single Source of Truth' architecture using **YAML and Jinja2**, reducing resume tailoring time by **95%** for multiple job families (TPM, Product) by decoupling content from layout and utilizing modular data inheritance.
- Engineered an automated **Quality Assurance protocol** that enforces the Google '**XYZ**' formula, by leveraging **Python-based validation logic** to identify, audit, and reject localized experience content lacking measurable impact, metrics, or depth.
- Achieved consistent **~90% parsing scores** across standard ATS checkers by decoupling data from design using a custom **LaTeX class structure** that prioritizes machine readability, accessibility, and semantic document structure.

Split-Wiser: AI Expense Tool

- Reduced splitting time by **76%** and validated app stability by monitoring the platform in a **secure pre-production environment**, isolating and troubleshooting all reported issues using strict **QA protocols** to guarantee zero critical defects.
- Enabled fair and precise expense splitting by applying **complex context engineering** to design a conversational AI agent, building a **custom OpenAI GPT** that parses unstructured data to guide users through a strict and robust verification workflow.
- Demonstrated domain expertise as measured by zero security breaches, by seamlessly leveraging financial reconciliation, user verification workflows, and strict KYC/AML compliance and ACH/SWIFT rules to securely align all business requirements.

Skills and Tools

- **Business Analysis & Strategy:** Requirements Elicitation, Gap Analysis, PRD/BRD Documentation, Process Modeling (BPMN), Stakeholder Translation, Data Storytelling, Market Research, UAT Coordination, TAM/SAM/SOM modeling, SaaS Revenue Forecasting, Pricing Realization Analysis, Churn Rate optimization, Market Entry Barriers, M&A Due Diligence, Competitive Counter-strategies, P&L Management.
- **AI & Data Analysis:** Predictive Data Modeling, SQL-to-Insights (LLMs), Automated Reporting, Predictive Analytics, Generative AI (Gemini/GPT-4o), Prompt Engineering, n8n Automation.
- **Technical Tools & Platforms:** Power BI, Tableau, SQL, Python, Excel (Advanced), Jira, Visio, Lucidchart, Asana, Notion, GitHub, AWS (Basic), Salesforce (SFDC), CPQ platforms, Power Automate, Smartsheet, Monday.com.
- **Soft Skills & Collaboration:** Cross-functional Alignment, Conflict Resolution, Product Storytelling, Strategic Communication, Agile Facilitation, Mentorship.
- **Methodologies:** Agile, Scrum, Lean-Agile, SDLC, SOP Architecture, Waterfall, Process Improvement.

Certifications

- | | |
|--|--|
| • Certified Scrum Product Owner (CSPO) | • Google: Foundation of Project Management |
| • Lean Six Sigma Green Belt (LSSGB) | • Google: Data Analytics: Foundations |
