

Abhishek Nagaraja

Dallas, Texas, USA • work.abhishekn@gmail.com • [linkedin.com/in/abhisheknagaraja](https://www.linkedin.com/in/abhisheknagaraja) • www.abhishekn.in

Technical Product Manager with a strong technical background in Computer Science and a user-centric approach to building scalable products. Expert in driving product strategy through technical and market research, leveraging human empathy to solve complex user problems, and ensuring customer satisfaction by aligning technical execution.

Education

University of Texas at Arlington
Master of Science in Computer Science
Master of Science in Engineering Management

Dallas, Texas, USA
August 2023 - May 2024
May 2024 - Current

Jawaharlal Nehru Technological University
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India
August 2019 - July 2023

Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA

October 2023 - October 2025

- Orchestrated the end-to-end **product lifecycle** for 'MavMarket', scaling the event to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a comprehensive and highly optimized **vendor acquisition strategy**.
- Improved stakeholder **Net Promoter Score (NPS)** by 35% and engagement by 25% by executing a high-fidelity feedback system for 100+ vendors and 200+ attendees, utilizing **user research** to identify and resolve key friction points.
- Reduced event planning time by 40% by architecting a 50+ page, **AI-powered Standard Operating Procedure (SOP)** in Gemini that improved organizational efficiency and delivered a consistent and professional user experience for all MavMarket users.
- Grew the university's Entrepreneurship Club to 100+ active members by founding the organization, leading a 10-member executive board, and facilitating over 20 workshops by utilizing a **peer-to-peer mentorship pipeline** to drive community growth.
- Enhanced community engagement for the local '1 Million Cups' chapter by successfully onboarding 24 local founders, utilizing targeted **go-to-market strategies** and high-value networking events to foster a thriving student builder brand.
- Demonstrated domain expertise as measured by zero launch delays, by utilizing complex physical infrastructure coordination and strictly executing on-site vendor pipelines to consistently align all business and strict operational requirements.

Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - January 2023

- Drafted **Product Requirement Documents (PRDs)** and coordinated task delegation for 4 key projects, serving as the bridge between stakeholders and technical teams by utilizing **Jira** to ensure consistent and on-time delivery cycles.
- Improved development efficiency by 20% by serving as Scrum Master, applying **Lean-Agile principles** to streamline workflows and ceremonies by utilizing **bi-weekly retrospectives** to identify, document, and remove complex process blockers.
- Optimized the end-to-end **order lifecycle** for an e-commerce platform to improve customer satisfaction, by leveraging **automated inventory triggers** and pricing logic to reduce data processing errors and improve reliability by 15%.
- Demonstrated execution excellence as measured by zero-defect deployments, by proactively mitigating critical project risks and utilizing Gantt charts in Jira to manage 100% on-time delivery across 4 complex enterprise projects.
- Served as the primary liaison for stakeholder translation, by bridging technical complexity for non-technical executive leadership to strictly align product roadmaps, requirements, and business goals across global teams.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - July 2023

- Spearheaded community growth to 5,000+ members by performing **Market Analysis** and building a strategic network of industry partners, by utilizing **200+ technical workshops** to foster a thriving, scalable, and inclusive developer ecosystem.
- Iterated on technical curriculum content based on high-value **attendee satisfaction metrics**, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive professional builder engagement for community members.

Strategic Projects & Analysis

[Google Maps: Product Strategy](#)

- Translated qualitative data from **42 user interviews** into two core problem statements, revealing a critical user need for guaranteed **menu accuracy** by utilizing **UX journey mapping** to identify high-friction drop-off points.
- Architected a **product strategy** to directly address validated user needs, by utilizing a roadmap for a **centralized menu system** with granular filtering to capture the high-value market segment with critical dietary requirements.

Clash of Clans: Growth Strategy

- Proposed a **viral growth strategy** driving **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, by utilizing **referral loop optimization** and player behavioral data patterns.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped **Clan Discovery engine** and transforming the feed by utilizing **data-driven insights**, metrics, and predictive UX patterns.

Technical Projects

Thara: Multi-Agent AI Ecosystem

- Architected a scalable **Multi-Agent AI infrastructure** enabling **11 specialized autonomous agents** to orchestrate complex workflows by engineering a **LangGraph-based state machine** synchronized with a **FastAPI** backend and **PostgreSQL**.
- Revolutionized the productivity experience by automating tasks, habits, and **'Ikigai' alignment** via the **'Thara'** ecosystem that combine proactive **AI coaching** with real-time **behavioral recognition** to ensure goal attainment.
- Demonstrated domain expertise as measured by zero critical system failures, by utilizing complex system resilience architectures, proactive API security, and automated error handling workflows to heavily strengthen the entire product ecosystem.
- Optimized feature adoption rates by 20 percent by executing a robust user research methodology and rapidly iterating on core UI/UX designs based on iterative A/B testing results and high-fidelity predictive user heatmap analytics.

Resume Agent - AI Resume Engineering System

February 2026 - Present

- Orchestrated a 'Single Source of Truth' architecture using **YAML and Jinja2**, reducing resume tailoring time by **95%** for multiple job families (TPM, Product) by decoupling content from layout and utilizing modular data inheritance.
- Engineered an automated **Quality Assurance protocol** that enforces the Google **'XYZ' formula**, by leveraging **Python-based validation logic** to identify, audit, and reject localized experience content lacking measurable impact, metrics, or depth.
- Achieved consistent **~90% parsing scores** across standard ATS checkers by decoupling data from design using a custom **LaTeX class structure** that prioritizes machine readability, accessibility, and semantic document structure.

Split-Wiser: AI Expense Tool

- Reduced splitting time by **76%** and validated app stability by monitoring the platform in a **secure pre-production environment**, isolating and troubleshooting all reported issues using strict **QA protocols** to guarantee zero critical defects.
- Enabled fair and precise expense splitting by applying **complex context engineering** to design a conversational AI agent, building a **custom OpenAI GPT** that parses unstructured data to guide users through a strict and robust verification workflow.
- Demonstrated domain expertise as measured by zero security breaches, by seamlessly leveraging financial reconciliation, user verification workflows, and strict KYC/AML compliance and ACH/SWIFT rules to securely align all business requirements.

Product-Pal: AI Product Teardown Specialist

- Reduced product analysis time by **70%** and successfully increased strategic throughput by **3x** by designing an **AI agent** utilizing **n8n workflows** to fully automate the end-to-end teardown process from discovery research to final GTM strategy.
- Applied **context engineering** to design a **complex multi-step analytical workflow**, by utilizing structured prompts that accurately guide the LLM to highly specific, **actionable results** while mitigating technical hallucination risks.

Skills and Tools

- **Technical Product Management:** Product Strategy, Roadmap Development, Market Research, User Empathy, Customer Satisfaction, A/B Testing, Feature Prioritization (RICE/MOSCOW), PRDs, Go-to-Market (GTM), Stakeholder Management, KPI Analysis, User Stories, Product-Led Growth (PLG), CAPEX/OPEX, Resource Allocation, Root Cause Analysis (RCA), Change Management, Work Breakdown Structure (WBS), Bill of Materials (BOM), Revenue Forecasting / ROI Analysis, UAT Coordination, Budget & Financial Tracking.
- **AI & System Architecture:** LLMs (GPT-4o, Claude, Gemini), RAG Architectures, LangChain/LangGraph, Prompt Engineering, Power BI, Amplitude, TensorFlow, PyTorch, Hugging Face, Snowflake, Databricks, Microsoft Power Platform.
- **Technical Tooling & Vibe Coding:** SDLC, API Design (REST), Cloud Architecture (AWS, Azure, GCP), System Design, Data Modeling, Python, Advanced SQL (Window Functions), Tableau, JavaScript, TypeScript, Go, Rust, CI/CD, Technical Subject Matter Expert (SME), Non-Functional Requirements (NFRs).
- **Agile & Project Execution:** Scrum, Kanban, SAFe, Linear, Jira, Confluence, User Story Mapping, Sprint Planning, Retrospectives, Aha!, Microsoft Project, Salesforce, HubSpot, Smartsheet, Microsoft Visio.
- **Soft Skills & Leadership:** Engineering-to-Business Translation, Conflict Resolution, Cross-functional Alignment, Mentorship Pipelines, Product Storytelling, Narrative Data.

Certifications

- Certified Scrum Product Owner (CSPO)
- Lean Six Sigma Green Belt (LSSGB)
- Google: Foundation of Project Management
- Google: Project Initiation: Starting a Successful Project
- Google: Project Planning: Putting It All Together
- McKinsey.org Forward Program
