

Abhishek Nagaraja, (CSPO)

Arlington, Texas, USA • work.abhishekn@gmail.com • www.abhishekn.in • linkedin.com/in/abhisheknagaraja

Technical Product Manager specializing in **Market Research** and **Customer Satisfaction** through data-driven strategy. Technical expert in leveraging AI to rapidly architect and ship **prototypes, applications, and autonomous agents** using agentic development workflows and **Cloud Architecture (AWS)**.

Education

University of Texas at Arlington
Master of Science in Computer Science

Texas, USA
August 2023 - May 2024

• **Master of Science in Engineering Management**

May 2024 - Current

Jawaharlal Nehru Technological University
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India
August 2019 - July 2023

Projects

Thara: Multi-Agent AI Ecosystem

- Accomplished **scalable AI infrastructure** as measured by **11 orchestrated agents**, by **architecting a Multi-Agent ecosystem** using **LangGraph** and **Cloud Architecture (AWS, Terraform)**.
- Accomplished **2x faster development cycles** as measured by **sprint velocity**, by **using Antigravity and Cursor** to engineer the **Back-end (FastAPI/PostgreSQL)**.
- Accomplished **99.9% uptime** as measured by **prototype stress testing**, by **implementing a comprehensive testing suite** and validation scripts for agent interactions.

Google Maps: Product Teardown

- Accomplished **validated problem definition** as measured by **42 user interviews**, by **translating qualitative data** into core problem statements regarding menu accuracy.
- Accomplished **strategic roadmap alignment** as measured by **addressing validated user needs**, by **architecting a centralized menu system** strategy with granular filtering.

Clash of Clans: Product Teardown

- Accomplished **organic growth strategy** as measured by **5-10% projected acquisition**, by **proposing a native social sharing feature** based on user research.
- Accomplished **retention optimization** as measured by **15-20% projected join rate increase**, by **designing a revamped Clan Discovery engine** to improve onboarding.

Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA

October 2023 - October 2025

- Accomplished **successful program launch** as measured by **5,000+ attendees** and **\$120,000 in revenue**, by **founding and managing the end-to-end product lifecycle** for 'MavMarket'.
- Accomplished **40% reduction in overhead** as measured by **automated departmental workflows**, by **architecting an AI-powered Standard Operating Procedure (SOP)** using Google's Gemini models.
- Accomplished **35% improvement in Net Promoter Score (NPS)** as measured by **stakeholder feedback**, by **designing a data analytics dashboard** to identify and resolve systemic friction points.
- Accomplished **community growth** as measured by **100+ active members**, by **founding the Entrepreneurship Club** and facilitating technical workshops.

Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - January 2023

- Accomplished **robust system architecture** as measured by **successful delivery of 4 key projects**, by **authoring technical Product Requirement Documents (PRDs) and API specifications**.
- Accomplished **20% efficiency gain** as measured by **reduced regression cycles**, by **applying Lean-Agile principles** and automated testing as **Scrum Master**.
- Accomplished **optimized order lifecycle** as measured by **customer satisfaction**, by **overseeing API integrations** and database integrity for an e-commerce platform.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - January 2025

- Accomplished **ecosystem leadership** as measured by **5,000+ members**, by **founding and leading Hyderabad's largest technical community** and orchestrating 200+ workshops.

- Accomplished **talent pipeline creation** as measured by **50+ internships**, by **facilitating technical projects** and strategic partnerships within the tech ecosystem.
- Accomplished **high-impact engagement** as measured by **500+ attendees**, by **orchestrating large-scale technical events** and producing founder-focused content.

Skills and Tools

- **AI & Agentic Dev:** Models: Gemini, GPT-4o, Claude — Platforms: LangGraph, LangChain, n8n, API Integration — IDEs: **Antigravity, Cursor, Co-Pilot** — Concepts: RAG, Prompt Engineering, Agentic Workflows.
- **Cloud, DevOps Infra:** AWS (EC2, S3, Lambda), **Kubernetes (K8s), Docker, Terraform (IaC)**, CI/CD Pipelines, Azure DevOps, Snowflake, REST APIs, PostgreSQL, Vector DBs.
- **Product Management:** Lifecycle Management (PLM), BOM Management, Feature Prioritization (RICE), PRDs, **DFx (Design for Excellence)**, GTM Strategy, A/B Testing, Market Analysis.
- **Software Development:** Languages: Python, JavaScript (ReactJS, NodeJS), SQL, HTML/CSS, LaTeX — Testing: Automated Test Scripts, QA Validation, Regression Testing.
- **Design & Analytics:** UI/UX Design (Figma), Wireframing, User Journey Mapping — Analytics: Power BI, Google Analytics, Excel, Data-driven Decision Making.

Certification

- [Certified Scrum Product Owner \(CSPO\)](#)
- [Google: Foundation of Project Management](#)
- [Google: Project Initiation: Starting a Successful Project](#)
- [McKinsey.org Forward Program](#)
- Google: Data Analytics Specialization

Other Projects

Product-Pal: AI Strategy Specialist

- Accomplished **70% faster analysis** as measured by **strategic throughput**, by **designing an AI agent** that automates the end-to-end product teardown process.
- Accomplished **intuitive user experience** as measured by **high-fidelity interactions**, by **leading UI/UX design and React development** for the dashboard.
- Accomplished **30% reduced latency** as measured by **API response time**, by **optimizing model performance** with Prompt Engineering and context caching.

Split-Wiser: AI-Powered Financial Automation

- Accomplished **high-accuracy data extraction** as measured by **OCR performance**, by **prototyping a bill-splitting solution** using OpenAI API and CustomGPTs.
- Accomplished **data integrity** as measured by **verified user workflows**, by **designing the end-to-end API workflow** for expense distribution.
