

Abhishek Nagaraja, (CSPO)

Arlington, Texas, USA • work.abhishekn@gmail.com • www.abhishekn.in • linkedin.com/in/abhisheknagaraja

Purpose-driven Product Manager who builds with an entrepreneurial mindset. **Passionate about applying AI and automation to solve meaningful user problems and build thriving communities from the ground up.**

Education

University of Texas at Arlington
Master of Science in Computer Science

Texas, USA
August 2023 - May 2024

Master of Science in Engineering Management

May 2024 - Current

[Jawaharlal Nehru Technological University Hyderabad](#)
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India.
August 2019 - July 2023

Projects (Product Work) (Click for detailed information.)

[Google Maps : Product Teardown](#)

- Translated qualitative data from **42 user interviews** into **two core problem statements**, revealing a critical user need for guaranteed **menu accuracy and granular dietary filters** to reduce platform drop-off.
- Architected a product strategy to directly address validated user needs, proposing a roadmap for a **centralized menu system with advanced, granular filtering** to capture the high-value market segment with **critical dietary requirements**.

[Clash of Clans : Product Teardown](#)

- Proposed a strategy to **drive 5-10% in new organic user acquisition** by creating a native social sharing feature for key in-game content like Attack Replays and Base Layouts, a recommendation validated by quantitative user research.
- Projected a **15-20% increase in join rates and a 20-30% increase** in feature adoption by designing a revamped Clan Discovery engine and transforming the static “Social” tab into a dynamic feed for spectating friends’ attacks.

[Thara - AI Personal Agent](#)

- Architected a scalable multi-agent AI infrastructure enabling 11 specialized autonomous agents to orchestrate complex user workflows by engineering a LangGraph-based state machine synchronized with a FastAPI backend and PostgreSQL database.
- Revolutionized the personal productivity experience by automating the holistic tracking of tasks, habits, and ‘Ikigai’ purpose alignment by developing the ‘Thara’ ecosystem that combines proactive AI coaching with real-time behavioral pattern recognition.”

Work Experience

Program Manager Intern, [University of Texas at Arlington](#) - Texas, USA

October 2023 - Present

- Founded and Managed the end-to-end product lifecycle for ‘MavMarket,’ from ideation and vendor management to product launch planning, scaling the event to **200+ vendors, 5,000+ attendees, and an estimated \$120,000 in collective revenue**.
- Increased vendor NPS by 35% and engagement by 25%** by designing and executing a feedback system for 100+ vendors and 200+ attendees, analyzing quantitative and qualitative data to identify and resolve key operational friction points.
- Reduced event planning time by **40% by architecting a 50+ page, AI-powered Standard Operating Procedure (SOP) in Gemini** that **improved organizational efficiency** and delivered a consistent user experience for MavMarket.
- Grew the university’s Entrepreneurship Club from **100+ active members** by founding the organization, leading a 10-member executive board, and facilitating over 20 workshops.
- Enhanced community engagement for the local “**1 Million Cups**” chapter by successfully attracting and onboarding **24 local founders** through targeted go-to-market strategies.

Business Analyst Intern, [NFC Solutions Private Limited](#) - Hyderabad, India

April 2022 - January 2023

- Authored the **Product Requirement Documents (PRDs)**, managed task delegation, and facilitated **cross-functional collaboration** as the Project Manager for **4 key projects**, between Design, Development, and QA teams to ensure on-time delivery and earn positive client feedback.
- Improved development **efficiency by 20% by serving as Scrum Master**, applying Lean principles within an Agile framework to streamline workflows, lead daily scrum calls, and develop the product backlog in collaboration with UI/UX, Dev and QA.
- Owned the end-to-end order lifecycle for an e-commerce platform to improve **customer satisfaction and operational efficiency**, overseeing processes from inventory and pricing management to delivery coordination and post-sale customer support.

Founder and Community Lead, [e-DAM Community](#) - Hyderabad, India

March 2021 - January 2025

- Founded Hyderabad Technical Community, impacting **5000 students through 200+ technical sessions** and workshops by establishing a program named “#100DaysOfTech” and helping students get awareness and knowledge of 8 technologies.
- Initiated **7+ projects and 5+ startups, fostering 50+ internships** within the Hyderabad tech ecosystem.
- Organizer Lead of “Social Media Summit 2023” Hyderabad, India. **10+ Social Media Influencers, 50 Team members, 5 Sessions, 8 Guest Speakers, 500+ Attendees.**
- Launched and Produced **e-DAM Spotlight**, a podcast featuring **12 technology and startup founders**, inspiring and raising awareness of regional opportunities.

Skills and Tools

- **AI & Automation: Models:** Google LLMs (Gemini), OpenAI API (GPT-4o), CustomGPTs — **Concepts:** Prompt Engineering, System Design, AI Product Strategy, Model Evaluation Metrics — **Platforms:** n8n, API Integration, Cursor IDE, Google Antigravity
- **Product Management: Core:** Product Lifecycle Management, Roadmap Development, Feature Prioritization (RICE, MoSCoW), Process Improvement & SOPs, Product Requirement Document, GTM Strategy, A/B Testing, Market & Competitive Analysis — **Research:** Market & User Research, Persona Development, Competitive Analysis
- **User Experience (UX):** Design: Foundations of UX Design, Prototyping & Wireframing — **Research:** User Journey Mapping, User Feedback Analysis
- **Business Development & Leadership: Attributes:** Problem-solving mindset, Customer-facing experience, Start-up experience — **Strategy:** Business Development, Partnership & Sponsorship — **Management:** Organization Building, Team Building, Stakeholder Management, Product Storytelling
- **Software Development & DevOps:** Methodologies: Agile, Scrum, Sprint Planning & Backlog Management — **Languages:** Python, JavaScript, SQL, C, HTML, CSS, LaTeX — **Technologies & DB:** ReactJS, NodeJS, Git, GitHub, MongoDB — **DevOps & Cloud:** Git, GitHub, Docker, AWS (S3, EC2), IAM, CI/CD Concepts
- **Tools & Analytics:** PM Tools: Jira, Asana, Notion, Microsoft Project, Figma — **BI & Analytics:** SQL, NoSQL, Power BI, Google Analytics, Microsoft Excel & Word

Certification

- [Certified Scrum Product Owner](#)
- [Google : Foundation of Project Management](#)
- [Google : Project Initiation: Starting a Successful Project](#)
- [Google : Project Planning: Putting It All Together](#)
- [McKinsey.org Forward Program](#)
- [Google: Data Analytics: Foundations](#)

Other Projects (Product Work)

[Split-Wiser — AI-Powered Expense Splitting Tool](#)

- Reduced manual expense splitting time by **76% (4.75 hours/month)** and validated product stability by monitoring and validating the application in a pre-production environment, and by probing, isolating, and troubleshooting reported issues.
- Enabled fair and precise expense splitting by applying context engineering to design a conversational AI agent, **building a CustomGPT** that accurately parses unstructured data (PDFs, receipts) and guides users through a 12-step workflow.

[Product-Pal: AI Product Teardown Specialist](#)

- **Reduced product analysis time by 70% and increased strategic throughput by 3x** by designing an AI agent that automates the end-to-end teardown process from research synthesis and persona development to generating strategic recommendations.
- Applied **context engineering** by designing a structured, multi-step analytical workflow that guides the LLM from broad data synthesis to specific, actionable recommendations, ensuring high-fidelity outputs and mitigating model hallucination.
