

# Abhishek Nagaraja, (CSPO)

Arlington, Texas, USA • work.abhishekn@gmail.com • [www.abhishekn.in](http://www.abhishekn.in) • [linkedin.com/in/abhisheknagaraja](https://linkedin.com/in/abhisheknagaraja)

Purpose-driven Product Manager who builds with an entrepreneurial mindset. Passionate about applying AI and automation to solve meaningful user problems and build thriving communities from the ground up.

## Education

University of Texas at Arlington  
Master of Science in Computer Science

Texas, USA  
August 2023 - May 2024

Master of Science in Engineering Management

May 2024 - Current

Jawaharlal Nehru Technological University Hyderabad  
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India  
August 2019 - July 2023

## Projects (Product Work)

### Thara: AI Personal Agent

- Architected a scalable **multi-agent AI infrastructure** enabling 11 specialized autonomous agents to orchestrate workflows by engineering a **LangGraph-based state machine** synchronized with a **FastAPI backend** and **PostgreSQL**.
- Revolutionized the personal productivity experience by automating the holistic tracking of tasks, habits, and 'Ikigai' alignment by developing the 'Thara' ecosystem that combines proactive AI coaching with real-time behavioral pattern recognition.

### Split-Wiser: AI-Powered Expense Splitting Tool

- Reduced manual expense splitting time by **76% (4.75 hours/month)** and validated product stability by monitoring and validating the application in a pre-production environment, and by probing, isolating, and troubleshooting reported issues.
- Enabled fair and precise expense splitting by applying context engineering to design a conversational AI agent, building a **CustomGPT** that accurately parses unstructured data (PDFs, receipts) and guides users through a 12-step workflow.

### Google Maps: Product Teardown

- Translated qualitative data from **42 user interviews** into **two core problem statements**, revealing a critical user need for guaranteed menu accuracy and granular dietary filters to reduce platform drop-off.
- Architected a product strategy to directly address validated user needs, proposing a roadmap for a **centralized menu system with granular filtering** to capture the high-value market segment with critical dietary requirements.

### Clash of Clans: Product Teardown

- Proposed a strategy to drive **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, a recommendation validated by quantitative user research and player behavior analysis.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped Clan Discovery engine and transforming the "Social" tab into a dynamic feed for real-time engagement.

## Work Experience

### Program Manager Intern, University of Texas at Arlington - Texas, USA

Oct. 2023 - Present

- Founded and Managed the end-to-end product lifecycle for 'MavMarket,' scaling the event to **200+ vendors, 5,000+ attendees**, and generating **\$120,000 in revenue** by orchestrating ideation, vendor relations, and launch strategy.
- Increased vendor NPS by **35%** and engagement by **25%** by designing and executing a feedback system for 100+ vendors and 200+ attendees, utilizing data to identify and resolve key operational friction points.
- Reduced event planning time by **40%** by architecting a **50+ page, AI-powered Standard Operating Procedure (SOP) in Gemini** that improved organizational efficiency and delivered a consistent user experience.
- Grew the university's Entrepreneurship Club from **100+ active members** by founding the organization, leading a 10-member executive board, and facilitating over 20 workshops.
- Enhanced community engagement for the local "1 Million Cups" chapter by successfully attracting and onboarding **24 local founders** through targeted go-to-market strategies and networking initiatives.

### Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - Jan. 2023

- Authored **Product Requirement Documents (PRDs)** and managed task delegation as Project Manager for 4 key projects, ensuring on-time delivery across Design, Dev, and QA teams.
- Improved development efficiency by **20%** by serving as **Scrum Master**, applying Lean principles within an Agile framework to streamline workflows and optimize daily scrums.
- Owned the end-to-end order lifecycle for an e-commerce platform to improve customer satisfaction and operational efficiency, overseeing inventory, pricing strategies, and post-sale support.

## Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - Jan. 2025

- Founded Hyderabad Technical Community, impacting **5000 students** through 200+ technical sessions and the "#100DaysOfTech" upskilling program.
- Initiated 7+ projects and 5+ startups, fostering **50+ internships** within the burgeoning Hyderabad tech ecosystem.
- Organizer Lead of "Social Media Summit 2023" (10+ Influencers, 500+ Attendees). Launched "e-DAM Spotlight" podcast featuring 12 successful founders.

## Skills and Tools

---

- **AI & Automation:** Models: Google LLMs (Gemini), OpenAI API (GPT-4o), CustomGPTs — Concepts: Prompt Engineering, System Design, AI Product Strategy, Model Evaluation Metrics — Platforms: n8n, API Integration, Cursor IDE, Google Antigravity
- **Product Management:** Core: Product Lifecycle Management, Roadmap Development, Feature Prioritization (RICE, MoSCoW), Process Improvement & SOPs, Product Requirement Document, GTM Strategy, A/B Testing, Market & Competitive Analysis — Research: Market & User Research, Persona Development, Competitive Analysis
- **User Experience (UX):** Design: Foundations of UX Design, Prototyping & Wireframing — Research: User Journey Mapping, User Feedback Analysis
- **Business Development & Leadership:** Attributes: Problem-solving mindset, Customer-facing experience, Start-up experience — Strategy: Business Development, Partnership & Sponsorship — Management: Organization Building, Team Building, Stakeholder Management, Product Storytelling
- **Software Development & DevOps:** Methodologies: Agile, Scrum, Sprint Planning & Backlog Management — Languages: Python, JavaScript, SQL, C, HTML, CSS, LaTeX — Technologies & DB: ReactJS, NodeJS, Git, GitHub, MongoDB — DevOps & Cloud: Git, GitHub, Docker, AWS (S3, EC2), IAM, CI/CD Concepts
- **Tools & Analytics:** PM Tools: Jira, Asana, Notion, Microsoft Project, Figma — BI & Analytics: SQL, NoSQL, Power BI, Google Analytics, Microsoft Excel & Word

## Certification

---

- Certified Scrum Product Owner
- Google: Foundation of Project Management
- Google: Project Initiation: Starting a Successful Project
- Google: Project Planning: Putting It All Together
- McKinsey .org Forward Program
- Google: Data Analytics: Foundations

## Other Projects

---

### Product-Pal: AI Product Teardown Specialist

- Reduced product analysis time by **70%** and increased strategic throughput by **3x** by designing an AI agent that automates the end-to-end teardown process from research synthesis and persona development to generating strategic recommendations.
- Applied context engineering by designing a structured, multi-step analytical workflow that guides the LLM from broad data synthesis to specific, actionable recommendations, ensuring high-fidelity outputs and mitigating model hallucination.
