

Abhishek Nagaraja

Dallas, Texas, USA • work.abhishekn@gmail.com • [linkedin.com/in/abhisheknagaraja](https://www.linkedin.com/in/abhisheknagaraja) • www.abhisheknagaraja.com

Technical Product Manager specializing in **AI/ML Infrastructure** and **Scalable Systems** with a background in Computer Science. Expert in leveraging deep **Problem Understanding** and rigorous **User Research** to architect **Multi-Agent Systems**, reducing **Operational Friction**, and driving **Cross-Functional Alignment** between engineering and business teams.

Education

University of Texas at Arlington Master of Science in Computer Science Master of Science in Engineering Management	Dallas, Texas, USA August 2023 - May 2024 May 2024 - Current
Jawaharlal Nehru Technological University Bachelor of Technology in Computer Science and Engineering	Hyderabad, India August 2019 - July 2023

Strategic Projects & Analysis

Thara: Multi-Agent AI Ecosystem

- Architected a scalable **Multi-Agent AI infrastructure** enabling **11 specialized autonomous agents** to orchestrate complex workflows by engineering a **LangGraph-based state machine** synchronized with a **FastAPI** backend and **PostgreSQL**.
- Optimized feature adoption rates by 20 percent by executing a robust user research methodology and rapidly iterating on core UI/UX designs based on iterative A/B testing results and high-fidelity predictive user heatmap analytics.

Google Maps: Product Strategy

- Translated qualitative data from **42 user interviews** into two core problem statements, revealing a critical user need for guaranteed **menu accuracy** by utilizing **UX journey mapping** to identify high-friction drop-off points.
- Architected a **product strategy** to directly address validated user needs, by utilizing a roadmap for a **centralized menu system** with granular filtering to capture the high-value market segment with critical dietary requirements.

Clash of Clans: Growth Strategy

- Proposed a **viral growth strategy** driving **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, by utilizing **referral loop optimization** and player behavioral data patterns.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped **Clan Discovery engine** and transforming the feed by utilizing **data-driven insights**, metrics, and predictive UX patterns.

Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA	October 2023 - October 2025
• Orchestrated the end-to-end product lifecycle for 'MavMarket', scaling the event to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a comprehensive and highly optimized vendor acquisition strategy. • Improved stakeholder Net Promoter Score (NPS) by 35% and engagement by 25% by executing a high-fidelity feedback system for 100+ vendors and 200+ attendees, utilizing user research to identify and resolve key friction points. • Reduced event planning time by 40% by architecting a 50+ page, AI-powered Standard Operating Procedure (SOP) in Gemini that improved organizational efficiency and delivered a consistent and professional user experience for all MavMarket users. • Grew the university's Entrepreneurship Club to 100+ active members by founding the organization, leading a 10-member executive board, and facilitating over 20 workshops by utilizing a peer-to-peer mentorship pipeline to drive community growth.	
Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India	April 2022 - January 2023
• Drafted Product Requirement Documents (PRDs) and coordinated task delegation for 4 key projects, serving as the bridge between stakeholders and technical teams by utilizing Jira to ensure consistent and on-time delivery cycles. • Improved development efficiency by 20% by serving as Scrum Master, applying Lean-Agile principles to streamline workflows and ceremonies by utilizing bi-weekly retrospectives to identify, document, and remove complex process blockers. • Optimized the end-to-end order lifecycle for an e-commerce platform to improve customer satisfaction, by leveraging automated inventory triggers and pricing logic to reduce data processing errors and improve reliability by 15%. • Demonstrated execution excellence as measured by zero-defect deployments, by proactively mitigating critical project risks and utilizing Gantt charts in Jira to manage 100% on-time delivery across 4 complex enterprise projects.	

- Served as the primary liaison for stakeholder translation, by bridging technical complexity for non-technical executive leadership to strictly align product roadmaps, requirements, and business goals across global teams.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - July 2023

- Spearheaded community growth to 5,000+ members by performing **Market Analysis** and building a strategic network of industry partners, by utilizing **200+ technical workshops** to foster a thriving, scalable, and inclusive developer ecosystem.
- Iterated on technical curriculum content based on high-value **attendee satisfaction metrics**, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive professional builder engagement for community members.

Technical Projects

Resume Agent - AI Resume Engineering System

February 2026 - Present

- Architected an **AI-driven Resume Ecosystem** utilizing a strict single-source-of-truth semantic data core, reducing generation time by **95%** by leveraging **dynamic context injection** to aggressively align user parameters into targeted layouts.
- Engineered an **Agentic Validation Protocol** enforcing the **Google XYZ formula**, maximizing strategic impact by leveraging **LLM context logic** to deep-audit and dynamically validate localized user content against strict operational constraints.
- Solved systemic ATS rejection pipelines by designing an optimized **LaTeX parsing engine**, achieving **90%+ match rates** across enterprise scanners by decoupling product data from custom layouts to prioritize baseline ATS machine readability.

Split-Wiser: AI Expense Tool

- Formulated a robust product strategy for complex expense attribution by engineering an **OpenAI GPT agent**, slashing manual splitting time by **76%** by utilizing conversational verification workflows to autonomously parse unstructured receipt data.

Skills and Tools

- **Technical Product Management:** Product Strategy, Roadmap Development, Market Research, User Empathy, Customer Satisfaction, A/B Testing protocols, Feature Prioritization (RICE/MOSCOW), PRDs, Go-to-Market, Stakeholder Management, KPI Analysis, User Stories, Product-Led Growth (PLG), CAPEX/OPEX, Resource Allocation, Root Cause Analysis (RCA), Change Management, Work Breakdown Structure (WBS), Bill of Materials (BOM), Revenue Forecasting / ROI Analysis, UAT Coordination, Budget & Financial Tracking, Product Lifecycle Management, Strategic Planning, Opportunity Assessment, Organizational Excellence.
- **AI & System Architecture:** LLMs (GPT-4o, Claude, Gemini), RAG Architectures, LangChain/LangGraph, Prompt Engineering, Power BI, Amplitude, TensorFlow, PyTorch, Hugging Face, Vector Databases (NeonDB), Agentic Workflow Architecture, Process Automation.
- **Technical Tooling & Vibe Coding:** SDLC, API Design (REST), Cloud Architecture (AWS), System Design, Data Modeling, Python, Advanced SQL (Window Functions), Tableau, JavaScript, TypeScript, Go, Rust, CI/CD, Technical Subject Matter Expert (SME), Non-Functional Requirements (NFRs), Kubernetes (K8s), Docker orchestration, CI/CD for ML (DVC)
- **Agile & Project Execution:** Scrum, Kanban, SAFe, Linear, Jira, Confluence, User Story Mapping, Sprint Planning, Retrospectives, Microsoft Project, HubSpot, Smartsheet, Vendor Management, Process Re-engineering.
- **Soft Skills & Leadership:** Engineering-to-Business Translation, Conflict Resolution, Cross-functional Alignment, Mentorship Pipelines, Product Storytelling, Narrative Data, Change Management.

Certifications

- Certified Scrum Product Owner (CSPO)
- AWS Certified Cloud Practitioner (In Progress)
- Google: Agile Project Management
- Lean Six Sigma Green Belt (LSSGB)
- Google: Data Analytics Specialization
- McKinsey.org Forward Program
- Google: Foundation of Project Management
