

Abhishek Nagaraja

Dallas, Texas, USA • work.abhishekn@gmail.com • [linkedin.com/in/abhisheknagaraja](https://www.linkedin.com/in/abhisheknagaraja) • www.abhisheknagaraja.com

Business Analyst with a focus on streamlining workflows and driving data-driven decision making. Experienced in gathering requirements, architecting Standard Operating Procedures, and improving organizational efficiency through AI-powered automation.

Education

University of Texas at Arlington
Master of Science in Computer Science
Master of Science in Engineering Management

Dallas, Texas, USA
August 2023 - May 2024
May 2024 - Current

Jawaharlal Nehru Technological University
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India
August 2019 - July 2023

Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA

October 2023 - October 2025

- Orchestrated the end-to-end **product lifecycle** for 'MavMarket', scaling the event to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a comprehensive and highly optimized **vendor acquisition strategy**.
- Improved stakeholder **Net Promoter Score (NPS)** by 35% and engagement by 25% by executing a high-fidelity feedback system for 100+ vendors and 200+ attendees, utilizing **user research** to identify and resolve key friction points.
- Reduced event planning time by 40% by architecting a 50+ page, **AI-powered Standard Operating Procedure (SOP)** in Gemini that improved organizational efficiency and delivered a consistent and professional user experience for all MavMarket users.
- Demonstrated domain expertise as measured by zero launch delays, by utilizing complex physical infrastructure coordination and strictly executing on-site vendor pipelines to consistently align all business and strict operational requirements.

Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - January 2023

- Drafted **Product Requirement Documents (PRDs)** and coordinated task delegation for 4 key projects, serving as the bridge between stakeholders and technical teams by utilizing **Jira** to ensure consistent and on-time delivery cycles.
- Improved development efficiency by 20% by serving as Scrum Master, applying **Lean-Agile principles** to streamline workflows and ceremonies by utilizing **bi-weekly retrospectives** to identify, document, and remove complex process blockers.
- Optimized the end-to-end **order lifecycle** for an e-commerce platform to improve customer satisfaction, by leveraging **automated inventory triggers** and pricing logic to reduce data processing errors and improve reliability by 15%.
- Demonstrated execution excellence as measured by zero-defect deployments, by proactively mitigating critical project risks and utilizing Gantt charts in Jira to manage 100% on-time delivery across 4 complex enterprise projects.
- Served as the primary liaison for stakeholder translation, by bridging technical complexity for non-technical executive leadership to strictly align product roadmaps, requirements, and business goals across global teams.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - July 2023

- Spearheaded community growth to 5,000+ members by performing **Market Analysis** and building a strategic network of industry partners, by utilizing **200+ technical workshops** to foster a thriving, scalable, and inclusive developer ecosystem.
- Iterated on technical curriculum content based on high-value **attendee satisfaction metrics**, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive professional builder engagement for community members.

Strategic Projects & Analysis

Google Maps: Product Strategy

- Translated qualitative data from **42 user interviews** into two core problem statements, revealing a critical user need for guaranteed **menu accuracy** by utilizing **UX journey mapping** to identify high-friction drop-off points.
- Architected a **product strategy** to directly address validated user needs, by utilizing a roadmap for a **centralized menu system** with granular filtering to capture the high-value market segment with critical dietary requirements.

Clash of Clans: Growth Strategy

- Proposed a **viral growth strategy** driving **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, by utilizing **referral loop optimization** and player behavioral data patterns.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped **Clan Discovery engine** and transforming the feed by utilizing **data-driven insights**, metrics, and predictive UX patterns.

Technical Projects

Resume Agent - AI Resume Engineering System

February 2026 - Present

- Architected an **AI-driven Resume Ecosystem** utilizing a strict single-source-of-truth semantic data core, reducing generation time by **95%** by leveraging **dynamic context injection** to aggressively align user parameters into targeted layouts.
- Engineered an **Agentic Validation Protocol** enforcing the **Google XYZ formula**, maximizing strategic impact by leveraging **LLM context logic** to deep-audit and dynamically validate localized user content against strict operational constraints.
- Solved systemic ATS rejection pipelines by designing an optimized **LaTeX parsing engine**, achieving **¿90 % match rates** across enterprise scanners by decoupling product data from custom layouts to prioritize baseline ATS machine readability.

Split-Wiser: AI Expense Tool

- Reduced splitting time by **76%** and validated app stability by monitoring the platform in a **secure pre-production environment**, isolating and troubleshooting all reported issues using strict **QA protocols** to guarantee zero critical defects.
- Enabled fair and precise expense splitting by applying **complex context engineering** to design a conversational AI agent, building a **custom OpenAI GPT** that parses unstructured data to guide users through a strict and robust verification workflow.
- Demonstrated domain expertise as measured by zero security breaches, by seamlessly leveraging financial reconciliation, user verification workflows, and strict KYC/AML compliance and ACH/SWIFT rules to securely align all business requirements.

Thara: Multi-Agent AI Ecosystem

- Architected a scalable **Multi-Agent AI infrastructure** enabling **11 specialized autonomous agents** to orchestrate complex workflows by engineering a **LangGraph-based state machine** synchronized with a **FastAPI** backend and **PostgreSQL**.
- Optimized feature adoption rates by 20 percent by executing a robust user research methodology and rapidly iterating on core UI/UX designs based on iterative A/B testing results and high-fidelity predictive user heatmap analytics.

Skills and Tools

- **Business Analysis & Strategy:** Requirements Elicitation, Author BRDs/FRDs, Gap Analysis, Feasibility Analysis, Competitive Analysis, As-Is/To-Be Process Mapping, Process Modeling (BPMN), User Stories, Backlog Management, Facilitate Stakeholder Workshops, Translate Business Needs, Data Storytelling, Analytical Techniques, Market Research, UAT Coordination, Test Case Creation, Presentations, Findings Documentation, TAM/SAM/SOM Modeling, Strategic Planning, Opportunity Assessment, Organizational Excellence.
- **AI & Data Analysis:** Predictive Data Modeling, SQL-to-Insights (LLMs), Automated Reporting, Predictive Analytics, Generative AI (ChatGPT, Gemini, GPT-4o, Claude), Prompt Engineering, n8n Automation, User Surveys, Interview Sessions, Variance Analysis, Trend Analysis, Data Visualization.
- **Technical Tools & Platforms:** Power BI, Tableau, SQL, Python, Excel (Advanced), Jira, Confluence, Visio, Lucidchart, Asana, Notion, GitHub, AWS (Basic), Salesforce (SFDC), CPQ platforms, Power Automate, Smartsheet, Monday.com, Executive Dashboards, Reporting Dashboards, Agentic Workflow Architecture, Process Automation.
- **Soft Skills & Collaboration:** Cross-functional Alignment, Conflict Resolution, Product Storytelling, Strategic Communication, Agile Facilitation, Mentorship.
- **Methodologies:** Agile, Scrum, Waterfall, Lean-Agile, SDLC, Continuous Improvement, SOP Architecture, Sprint Planning, Backlog Refinement, Process Improvement, Requirements Traceability, Root Cause Analysis, KPI Tracking, LeSS, ITSM, RAID Logs, Vendor Management, CSPO Certified.

Certifications

- | | |
|--|--|
| • Certified Scrum Product Owner (CSPO) | • Google: Foundation of Project Management |
| • Lean Six Sigma Green Belt (LSSGB) | • Google: Data Analytics: Foundations |
