Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA

October 2023 - October 2025

- Orchestrated the end-to-end **product lifecycle** for 'MavMarket', scaling the event to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a comprehensive and highly optimized **vendor acquisition strategy**.
- Improved stakeholder **Net Promoter Score (NPS)** by 35% and engagement by 25% by executing a high-fidelity feedback system for 100+ vendors and 200+ attendees, utilizing **user research** to identify and resolve key friction points.
- Reduced event planning time by 40% by architecting a 50+ page, **AI-powered Standard Operating Procedure (SOP)** in Gemini that improved organizational efficiency and delivered a consistent and professional user experience for all MavMarket users.
- Grew the university's Entrepreneurship Club to 100+ active members by founding the organization, leading a 10-member executive board, and facilitating over 20 workshops by utilizing a **peer-to-peer mentorship pipeline** to drive community growth.
- Enhanced community engagement for the local '1 Million Cups' chapter by successfully onboarding 24 local founders, utilizing targeted **go-to-market strategies** and high-value networking events to foster a thriving student builder brand.
- Demonstrated domain expertise as measured by zero launch delays, by utilizing complex physical infrastructure coordination and strictly executing on-site vendor pipelines to consistently align all business and strict operational requirements.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - July 2023

- Spearheaded community growth to 5,000+ members by performing **Market Analysis** and building a strategic network of industry partners, by utilizing **200+ technical workshops** to foster a thriving, scalable, and inclusive developer ecosystem.
- Iterated on technical curriculum content based on high-value **attendee satisfaction metrics**, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive professional builder engagement for community members.

Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - January 2023

- Drafted **Product Requirement Documents (PRDs)** and coordinated task delegation for 4 key projects, serving as the bridge between stakeholders and technical teams by utilizing **Jira** to ensure consistent and on-time delivery cycles.
- Improved development efficiency by 20% by serving as Scrum Master, applying **Lean-Agile principles** to streamline workflows and ceremonies by utilizing **bi-weekly retrospectives** to identify, document, and remove complex process blockers.
- Optimized the end-to-end **order lifecycle** for an e-commerce platform to improve customer satisfaction, by leveraging **automated inventory triggers** and pricing logic to reduce data processing errors and improve reliability by 15%.
- Demonstrated execution excellence as measured by zero-defect deployments, by proactively mitigating critical project risks and utilizing Gantt charts in Jira to manage 100% on-time delivery across 4 complex enterprise projects.
- Served as the primary liaison for stakeholder translation, by bridging technical complexity for non-technical executive leadership to strictly align product roadmaps, requirements, and business goals across global teams.

Strategic Projects & Analysis

[Google Maps: Product Strategy](#)

- Translated qualitative data from **42 user interviews** into two core problem statements, revealing a critical user need for guaranteed **menu accuracy** by utilizing **UX journey mapping** to identify high-friction drop-off points.
- Architected a **product strategy** to directly address validated user needs, by utilizing a roadmap for a **centralized menu system** with granular filtering to capture the high-value market segment with critical dietary requirements.

Clash of Clans: Growth Strategy

- Proposed a **viral growth strategy** driving **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, by utilizing **referral loop optimization** and player behavioral data patterns.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped **Clan Discovery engine** and transforming the feed by utilizing **data-driven insights**, metrics, and predictive UX patterns.

Technical Projects

Thara: Multi-Agent AI Ecosystem

- Architected a scalable **Multi-Agent AI infrastructure** enabling **11 specialized autonomous agents** to orchestrate complex workflows by engineering a **LangGraph-based state machine** synchronized with a **FastAPI** backend and **PostgreSQL**.
- Optimized feature adoption rates by 20 percent by executing a robust user research methodology and rapidly iterating on core UI/UX designs based on iterative A/B testing results and high-fidelity predictive user heatmap analytics.

Resume Agent - AI Resume Engineering System

February 2026 - Present

- Architected an **AI-driven Resume Ecosystem** utilizing a strict single-source-of-truth semantic data core, reducing generation time by **95%** by leveraging **dynamic context injection** to aggressively align user parameters into targeted layouts.
- Engineered an **Agentic Validation Protocol** enforcing the **Google XYZ formula**, maximizing strategic impact by leveraging **LLM context logic** to deep-audit and dynamically validate localized user content against strict operational constraints.
- Solved systemic ATS rejection pipelines by designing an optimized **LaTeX parsing engine**, achieving **90% match rates** across enterprise scanners by decoupling product data from custom layouts to prioritize baseline ATS machine readability.
