

Abhishek Nagaraja

Dallas, Texas, USA • work.abhishekn@gmail.com • [linkedin.com/in/abhisheknagaraja](https://www.linkedin.com/in/abhisheknagaraja) • www.abhishekn.in

Technical Product Manager with a strong technical background in Computer Science and a user-centric approach to building scalable products. Expert in driving product strategy through technical and market research, leveraging human empathy to solve complex user problems, and ensuring customer satisfaction by aligning technical execution with business goals. diverse experience in cross-functional leadership and agile delivery.

Education

University of Texas at Arlington	Arlington, Texas, USA
Master of Science in Computer Science	Aug 2023 - May 2024
Master of Science in Engineering Management	May 2024 - Current
Jawaharlal Nehru Technological University	Hyderabad, India
Bachelor of Technology in Computer Science and Engineering	Aug 2019 - July 2023

Work Experience

- | | |
|---|-----------------------------|
| Program Manager Intern, University of Texas at Arlington - Texas, USA | October 2023 - October 2025 |
|---|-----------------------------|
- Orchestrated the end-to-end product lifecycle for 'MavMarket', scaling the event to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a comprehensive vendor acquisition strategy.
 - Improved stakeholder NPS by 35% and engagement by 25% by designing and executing a feedback system for 100+ vendors and 200+ attendees, utilizing empathy-driven user research to identify and resolve key friction points.
 - Reduced event planning time by 40% by architecting a 50+ page, AI-powered Standard Operating Procedure (SOP) in Gemini that improved organizational efficiency and delivered a consistent user experience for MavMarket users.
 - Grew the university's Entrepreneurship Club to 100+ active members by founding the organization, leading a 10-member executive board, and facilitating over 20 workshops by utilizing a peer-to-peer mentorship pipeline.
 - Enhanced community engagement for the local '1 Million Cups' chapter by successfully attracting and onboarding 24 local founders, by utilizing targeted go-to-market strategies and high-value networking events for student builders.
- | | |
|---|-----------------------|
| Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India | April 2022 - Jan 2023 |
|---|-----------------------|
- Drafted Product Requirement Documents (PRDs) and coordinated task delegation for 4 key projects, serving as the bridge between stakeholders and technical teams by utilizing Jira to ensure on-time delivery cycles.
 - Improved development efficiency by 20% by serving as Scrum Master, applying Lean-Agile principles to streamline workflows and ceremonies by utilizing bi-weekly retrospectives to identify and remove blockers.
 - Optimized the end-to-end order lifecycle for an e-commerce platform to improve customer satisfaction, by leveraging automated inventory triggers and dynamic pricing logic to reduce processing errors by 15%.
- | | |
|--|------------------------|
| Founder and Community Lead, e-DAM Community - Hyderabad, India | March 2021 - July 2023 |
|--|------------------------|
- Spearheaded community growth to 5,000+ members by performing Market Analysis and building a strategic network of industry partners, by utilizing 200+ technical workshops to foster a thriving developer ecosystem.
 - Iterated on technical curriculum content based on high-value attendee satisfaction metrics, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive engagement for builders.

Strategic Projects & Analysis

Google Maps: Process Gap Analysis

- Identified workflow failure as measured by drop-off data (42 interviews), by conducting root cause analysis on menu accuracy using heuristic evaluation and user journey mapping to pinpoint friction in the dietary filter flow.
- Mitigated risk for dietary compliance as measured by validated user acceptance, by proposing a systemic process improvement to centralize menu management through a standardized vendor portal UI and automated validation schemas.

Clash of Clans: Optimization Proposal

- Forecasted 5-10% organic acquisition as measured by quantitative behavioral analysis, by formulating a growth strategy with native social sharing that leveraged incentivized referral loops and guild-based challenges to drive virality.
- Projected 20-30% adoption by designing a retention plan to revamp the social feed using personalized content algorithms and strategic push notification timing based on a deep analysis of user behavior.

Technical Projects

Thara: AI Personal Agent Ecosystem

- Orchestrated multi-agent coordination as measured by 11-agent synchronization, by architecting the system using LangGraph and FastAPI to handle asynchronous state handoffs between specialized finance and health agents.
- Aligned system with user goals as measured by real-time behavioral analysis, by automating complex workflows for task and habit tracking using vector-based context retrieval to reduce cognitive load for 15+ beta users.

Split-Wiser: Technical Program Delivery

- Enabled fair expense allocation as measured by precise parsing of complex bills, by managing end-to-end development of an AI-powered engine using LLMs (Gemini/GPT-4o) to automate multi-party debt reconciliation.
- Accelerated user adoption as measured by completion of the workflow, by streamlining the financial process into a repeatable 12-step guided journey that reduced manual splitting time by 76% (4.75 hours/month).

Skills

- Product & Project Management: Program Lifecycle Management, Risk Management, Stakeholder Communication, Roadmap Development, Feature Prioritization (RICE/MoSCoW), Process Improvement, SOP Design, GTM Strategy, A/B Testing, Market & User Research.
- Business Development & Leadership: Cross-functional Leadership, Conflict Resolution, Startup Operations, Business Development, Partnership & Sponsorship, Resource Capacity Planning, Product Storytelling.
- Software & Systems: Python, SQL, ReactJS, Git/GitHub, Docker, AWS (S3, EC2), CI/CD Concepts, API Strategy.
- Project Tools: Jira, Asana, Notion, Microsoft Project, Figma, Power BI, Google Analytics, Excel.
- AI Enhancement: AI-Powered SOP Architecture, Generative AI (Gemini, GPT-4o), n8n Automation, Prompt Engineering, AI Product Strategy, Model Evaluation Metrics, Automated Workflow Orchestration.
- Agile Frameworks: Agile, Scrum, Waterfall, Kanban, Sprint Planning, Backlog Management.

Certifications

- Certified Scrum Product Owner (CSPO)
- Lean Six Sigma Green Belt (LSSGB)
- Google: Foundation of Project Management
- Google: Project Initiation: Starting a Successful Project
- Google: Project Planning: Putting It All Together
- McKinsey.org Forward Program
