

Abhishek Nagaraja

Dallas, Texas, USA • work.abhishekn@gmail.com • [linkedin.com/in/abhisheknagaraja](https://www.linkedin.com/in/abhisheknagaraja) • www.abhishekn.in

Program Manager with expert-level proficiency in driving multi-million dollar global projects within fast-paced Tech environments. background in computer science enabling a deep understanding of technical complex environments. Proven expert in process improvement and stakeholder management.

Education

University of Texas at Arlington
Master of Science in Computer Science
Master of Science in Engineering Management

Arlington, Texas, USA
August 2023 - May 2024
May 2024 - Current

Jawaharlal Nehru Technological University
Bachelor of Technology in Computer Science and Engineering

Hyderabad, India
August 2019 - July 2023

Work Experience

Program Manager Intern, University of Texas at Arlington - Texas, USA

October 2023 - October 2025

- Directed the end-to-end **program lifecycle** for 'MavMarket', scaling operations to 200+ vendors and 5,000+ attendees while generating \$120,000 in revenue, by executing a high-impact **vendor acquisition strategy** and roadmap.
- Improved stakeholder **Net Promoter Score (NPS)** by 35% through a centralized feedback system for 300+ participants, utilizing **user research** to mitigate operational friction and streamline the end-to-end vendor onboarding journey.
- Reduced event planning time by 40% by architecting a 50+ page, **AI-powered SOP** in Gemini that standardized complex organizational workflows and delivered a consistent, high-fidelity experience for MavMarket stakeholders and users.
- Grew the university's Entrepreneurship Club to 100+ active members by founding the organization and leading a 10-member executive board, by utilizing a high-velocity **peer-to-peer mentorship pipeline** to drive student engagement.
- Standardized community engagement for the local '1 Million Cups' chapter by successfully onboarding 24 local founders, by utilizing targeted **go-to-market strategies** and high-value networking events for student and professional builders.

Business Analyst Intern, NFC Solutions Private Limited - Hyderabad, India

April 2022 - January 2023

- Directed technical delivery and **PRD documentation** for 4 key enterprise projects, serving as the primary bridge between stakeholders and engineering teams by utilizing **Jira** and Linear to ensure on-time delivery cycles.
- Drove operational excellence by serving as Scrum Master, applying **Lean-Agile principles** to streamline ceremonies and utilizing **bi-weekly retrospectives** to proactively identify, document, and mitigate complex project risks.
- Standardized the end-to-end **order lifecycle** for an e-commerce platform, by leveraging **automated inventory triggers** and pricing logic to reduce manual processing errors and improve overall resource and data efficiency.

Founder and Community Lead, e-DAM Community - Hyderabad, India

March 2021 - July 2023

- Spearheaded community growth to 5,000+ members by performing **Market Analysis** and building a strategic network of industry partners, by utilizing **200+ technical workshops** to foster a thriving, scalable, and inclusive developer ecosystem.
- Iterated on technical curriculum content based on high-value **attendee satisfaction metrics**, by utilizing narrative data and feedback loops to continuously improve learning outcomes and drive professional builder engagement for community members.

Strategic Projects & Analysis

Google Maps: Product Strategy

- Translated qualitative data from **42 user interviews** into two core problem statements, revealing a critical user need for guaranteed **menu accuracy** by utilizing **UX journey mapping** to identify high-friction drop-off points.
- Architected a **product strategy** to directly address validated user needs, by utilizing a roadmap for a **centralized menu system** with granular filtering to capture the high-value market segment with critical dietary requirements.

Clash of Clans: Growth Strategy

- Proposed a **viral growth strategy** driving **5-10% new organic user acquisition** by creating a native social sharing feature for key in-game content, by utilizing **referral loop optimization** and player behavioral data patterns.
- Projected a **15-20% increase in join rates** and **20-30% increase in feature adoption** by designing a revamped **Clan Discovery engine** and transforming the feed by utilizing **data-driven insights**, metrics, and predictive UX patterns.

Technical Projects

Thara: Multi-Agent AI Ecosystem

- Orchestrated multi-agent coordination as measured by **11-agent synchronization**, by managing the core architecture using **LangGraph and FastAPI** to handle complex asynchronous state handoffs between specialized finance and health agents.
- Aligned system with user goals as measured by **real-time behavioral analysis**, by automating complex workflows for task and habit tracking using **vector-based context retrieval** and indexed metadata to reduce cognitive load for beta users.

Resume Agent - AI Resume Engineering System

February 2026 - Present

- Orchestrated a 'Single Source of Truth' architecture using **YAML and Jinja2**, reducing resume tailoring time by **95%** for multiple job families (TPM, Product) by decoupling content from layout and utilizing modular data inheritance.
- Engineered an automated **Quality Assurance protocol** that enforces the Google 'XYZ' formula, by leveraging **Python-based validation logic** to identify, audit, and reject localized experience content lacking measurable impact, metrics, or depth.
- Achieved consistent **~90% parsing scores** across standard ATS checkers by decoupling data from design using a custom **LaTeX class structure** that prioritizes machine readability, accessibility, and semantic document structure.

Split-Wiser: AI Expense Tool

- Enabled fair expense allocation as measured by **precise parsing of complex bills**, by managing end-to-end development of an **AI-powered engine** using LLMs to automate multi-party debt reconciliation and multi-modal data mapping.
- Accelerated user adoption as measured by completion of the workflow, by streamlining the financial process into a repeatable **12-step guided journey** that reduced manual splitting and verification time by **76% (4.75 hours every month)**.

Product-Pal: AI Product Teardown Specialist

- Reduced product analysis time by **70%** and increased strategic throughput by **3x** by designing an **AI agent** that utilizing **n8n workflows** to automate the end-to-end teardown process from discovery research to GTM strategy.
- Applied **context engineering** to design a **multi-step analytical workflow**, by utilizing structured prompts that guide the LLM to specific, **actionable recommendations** while mitigating technical hallucination and consistency risks.

Skills and Tools

- **Program & Operations Management:** Program Lifecycle Management, Risk Mitigation, Stakeholder Alignment, Strategic Planning, Resource Allocation, SOP Architecture, GTM Strategy, Operational Efficiency, Budgeting, Change Management.
- **Leadership & Strategy:** Cross-functional Leadership, Conflict Resolution, Mentorship Pipelines, Executive Presence, Startup Operations, Business Development, Product Storytelling, Strategic Communication.
- **AI-Powered Operations:** Agentic Workflows (n8n, LangGraph), AI-Powered SOPs, Generative AI (Gemini, GPT-4o), Prompt Engineering, Automated Reporting, Predictive Analytics, AI Governance & Ethics.
- **Technical Systems:** Python, SQL, REST APIs, AWS (EC2, S3), CI/CD Pipelines, Docker, System Design Concepts, Database Management.
- **Project Mastery Tools:** Jira, Asana, Notion, Microsoft Project, Power BI, Excel (Advanced), Google Analytics, Figma, Antigravity, Cursor.
- **Agile & Lean Frameworks:** Agile, Scrum, Lean Six Sigma (Green Belt), Kanban, Waterfall, OKR Planning, Sprint Governance.

Certifications

- Certified Scrum Product Owner (CSPO)
- Lean Six Sigma Green Belt (LSSGB)
- Google: Foundation of Project Management
- Google: Project Initiation: Starting a Successful Project
- Google: Project Planning: Putting It All Together
- McKinsey.org Forward Program
